

The intervention services of Literacy Care vary in their purpose, length and the frequency of which they are delivered. Fees are calculated according to these variations.

Fees for intervention are designed to cover all materials, contact time and non-contact work by the practitioner. Fees also reflect the notion that parents are essentially 'purchasing' an outcome rather than merely paying for a weekly time slot.

Payments can be made electronically, in cash or via bank transfer. Fees can be paid upfront which attracts a reduced overall fee or on a pay as you go basis. Automatic direct debit facilities are also available.

Information on the total fees to be paid are put in writing and discussed before intervention commences.
